Q.

How can I make a very positive difference to my business?

A.

Get a Financial Health-Check

It will save you money
and give you peace of mind

The Financial Health-Check

- A very positive difference

Business has always been a struggle to make ends meet - chasing money, planning payments, making the most of limited resources, pressure from banks, investment decisions and finally (*and probably the biggest*) trying to devote as much time as possible to what you do best - producing quality goods or services. You are squeezed by everyone - customers, banks and creditors.

Today's economy is certainly no different
- if not worse.

The **B2B Cashflow Solutions** Financial Health-Check offers very real benefits to you.

We have a proven record that will:-

- Save you money each month
- Improve your cash-flow
- Improve your company security
- Ease monthly payments
- Release funding for other projects
- Relieve pressure on you and your company.

In short, the **B2B Cashflow Solutions** Financial Health-Check will allow you to make the best use of your company's resources.

How does the Health-Check work?

The Health-Check is a completely confidential examination of your company's finances with the express aim of making your company function more efficiently and release pressure on the management. We give excellent, professional, helpful advice with your best interests in mind.

We believe we can save you money and make your company run smoother.

The Financial Health-Check covers:-

- Trade debt/trade credit
- Business assets
- Grant availability
- Insurance
- Energy
- Telecoms
- Accountancy/book-keeping
- Banking
- Anything else that improves your financial performance!

What do you get and how much does it cost?

One of our very experienced and qualified senior partners (*Nick Flower, Ian Hart or Simon Reynolds*) will visit you. We never make judgement on your current situation and previous actions. We just want to help you move forward.

Our team will analyse your current key operating costs, future financial goals and objectives.

We will then provide a top-quality, in-depth and detailed strategy to improve the performance of your finances.

We are completely independent and work with a diverse range of financial organisations including a number of leading private financiers and suppliers. Our independence is your surety of the best advice.

The whole process (*including the meeting, analysis and report*) costs **£295 + Vat**. It's a small price for a high quality financial plan that once implemented will save you money and improve your company's financial performance.
